

ADEMOLA IBUKUNOLUWA

Profile

I am a tech professional with expertise in Flutter, Dart, PHP, Laravel, and React and React native. My skills span across developing captivating mobile applications using Flutter and Dart, as well as building robust web applications with PHP, Laravel, and React. With a knack for problem-solving and effective communication, I deliver exceptional user experiences and collaborate seamlessly with teams. I stay updated with the latest industry trends, constantly seeking opportunities to expand my knowledge and push the boundaries of technology.

Key Achievement

Creator & Lead Developer – Flint Dart Framework (Eulogia Technologies)

- Built a modern Dart backend framework with **ORM, migrations, JWT auth, hot reload and MySQL/PostgreSQL support.**
- Designed a **CLI** for project scaffolding, schema sync, and auto-documentation (Swagger).
- Published under Eulogia Technologies with docs at flintdart.eulogia.net.
